On the train.

Dearest Mother:

I hope you are having a good day - and will make up for the early rising this morning with a good nap. Just copy Skeesky. She knows how!

I forgot to tell you the watch went off nicely this morning, & so I think it will be very reliable.

It was wonderful having the nice breakfast - & do not feel the need of anything just now - have sandwiches at hand.

Have just written Ward his note. I told him if anything arose

2

to ask you about it - would you put his letter + statement in my right hand desk drawer? If it is too much trouble for him to send Dr. Bird a list of subscribers so far, you could give him the old list which is on my desk back of my typewriter. But perhaps it had best be left to the two men to do the job.

I still feel a bit guilty about taking the royalties back - but it was in good faith as a friendly gift for the trip - + I felt under the circumstances I could accept this very friendly gesture - which it certainly was. I do feel in a real friendship we can sometimes accept things - like Mongo for instance - so much ~~towering~~

SOUTHERN PACIFIC LINES
The friendly Southern Pacific

generosity & endless giving &
Bought for Bruzo - It is hard to
express, dearest Mother, what I feel
in going off on a trip you have
done so much - if not all - to
make possible - It is certainly your
trip as much as mine - & I hope
it will bring back riches of
another kind - As Mr. Dower said -
you will be poorer and richer!
I should say you will be poorer - ☺
Thank you - I am certainly starting
with all the advantages - &

Lark • Daylights • Sunbeam • Overland • Golden State • Cascade • City of San Francisco • Sunset Limited

think if I stay alert & am careful that it will be a most rewarding time & a rich experience.

Madeleine was so kind in every way - & she done perfectly. We are indeed blessed to have such a wonderful friend. She is a really unusual & precious person.

Much love, dearest Mother. It is wonderful you have gained so much strength - do keep on each day - I think the worst of that old colostomy is over - & I feel you will have a good quiet time now to consolidate your strength - & get ready for the happy years ahead. That is the privilege of your spirit -

I have Miss Sanchez' book under my arm - Charlotte are taken care of - You & Wendy will work out the one for the library of San Antonio - I think that is a wonderful idea - it will be a great help to them in working toward new understanding of the world in the age that is to come -

Then you can send the me to
Mrs. Rybrum in Bangkok for
their library when you get my dates
there. About the embassy in
Hong Kong - we will see. It would
be an advantage if I could carry
a copy about with me. to show if
then I could send you word where
to send it. Perhaps you could send
a copy or to me in Hawaii when I
get settled for me to put in my
suit case - I think it would be fine
to have me in the University of
School in India. It is a real aid
to the national understanding -
Poland + Paddy are both so inept - Tho the
man transcended the nation as all great spirits
must. Give my love to Stanley - So much to you -
Love, Bruce.

WRITTEN ALOFT PAA

Dearest Mother: It is hard to believe this great landscape - a globe of blue water with many different cloud landscapes here and there - The great airship is as steady as a rock - & I have a fine window seat near the engines & so have gotten some good pictures - What a feeling of the planet it gives me. Miss Earhart had a P.A.A. official come down & I was taken on the airship early (a new one) before the other passengers - & had a glimpse of the cockpit - Nice Coast Guard set-mate with Santa Cruz fiancé - Does govt. work in Japan -

Dearest Mother: It would be quite impossible to even begin to tell you of all the wonderful experiences so far - not to mention any kind of a description of this fairyland place - It was the greatest luck Fern hunt was full - for I am in a tiny hotel (run by a very fine + intelligent North Korean woman) right near Waikiki Beach - where everything goes on - it is a most fantastic avenue of astonishing hotels - lei-sellers - coconut palms - loaded with coconuts - food being served from canoes - all the water sports - elegant shops - & just now hundreds of visiting Australians - Olympic Games Scoreboards Everywhere - in cowboy attire - & having their boots shined by small Hawaiian boys - The water itself is full of canoes - surf-boards + sailing vessels - not to mention hundreds of swimmers. Hawaiians are very able + quick - esp. mechanically. Taxi drivers better than ours - + good camera men. The bus drivers are in patient of the visitors obtuseness. I being one of the latter -

Charlot's mural is a great thing - what an artist he is - Mr. Kaiser comes daily - first in yellow trousers - then in pink. He is a huge man - + not sensitive - Zohmah Charlot + I have become real friends - She is a very discerning woman with a wonderful heart. Her children are a bit unruly but talented - A host of friends of theirs are helping me to see things - a fine harpsichordist (Wanni worked like here) who is starting soon for Guatamala will take me to Bishops museum - (one of the best for Pacificana) - And at the party I met the man in charge of fishes at the U. Knows + admires work + I think he will show me the aquarium - There is hardly a minute but fortunately I had

today free - except for shopping
chores. Some things had to be
changed - my purse again for
a leather one (it got wet - the water
soaks up) & then I had
to attend to camera & other things -
not fault of camera - But am
all set again. Have my travel
papers in the safe here. (The
passport office advises always
doing that if one is in a reliable
hotel.) The Charlots cannot go
tomorrow. But I will - Perhaps the Abbots
can come to the mural next week -
Mr. Kaiser makes the most of his
opportunities - You know how I
feel about flags & nationalisms -
but - as I was leaving the other
day I heard the Star Spangled
Banner & looked around to see

HAWAIAN VILLAGE HOTEL

Four quite handsome Hawaiians pulling down the flag. At least 2 were pulling it down. One other was beating a large drum & the third blew lovely tones on a large conch shell (after the Anthem). He faced the several directions & blew. They all had on red skirts & naked torsos. flowered in white - after that as the dusk fell - they grasped torches & ran lightly over the lawns lighting fixed flares on top of standards set about the grounds. All this under the palms against the evening sea. In old times the burning flares were made of empty coconuts. Now they use kerosene.

I went in to an antique shop today to see a bronze Siamese hand. The owner was up on a ladder fixing the

ceiling. He came down - turned
out to be brilliant - gave me
a whole history of the movements
of peoples in the Pacific - Half
the jade of China comes from
Montana U.S.A. Pacific the natives went
every where - in all directions.
They followed the birds - specifically
the plovers - The Hawaiians
kept their canoes below the
place where the Plovers
arrived from Alaska in
Jan. & followed them to
Australia in March etc.
He proved to me that all
academic arguments about
Pacific migrations are useless.
Everything got every where. I
drink to Charlot Dibley so too.
They had coins in the mediterranean
before Christ etc - Shame

6 Mrs with Aunt Rge -
Now to business.

The 8 books are here. I gather Charlotte is still on its way having been sent sea-mail first?

So - one to Charlot - still on way - ? let me know about this

I take one } The eight to Abbot family today (1)
I will try + give me to the Library } The University of Hawaii - (2)
And one to the Y. W. C. A. Library (3)

I will air mail one from here to the Embassy at Hong Kong (4)

And one to the Rylburns in Bangkok (5)

I will take (carry) the one to Manila (6)

And try + get the 2 others in suitcase (8)
(1 for India - 1 for Ceylon)

That takes care of all you have sent - I would have to write ahead + do not have real contacts yet in India + Ceylon Embassies - Universities etc. so think I had better carry the 2 - + then if there is a need you will have to send the books to the places I find should have them —

1

I can't take more than the 2 in bag- + the one to Manila - since space is cramped in the plane + I have to carry them as a package outside Zipper - along with my copy of L.S. which has to remain outside of suitcase also - I do think I could use one or 2 more in India - but since it is hard to carry them + I do not know where to send them - we had best wait - Mail is not difficult to regular mail. That is the way all Rosalind's things are sent + they always arrive - So suppose I carry the 2 over there + then see what to do - It is wonderful to think of them getting about - as a real contribution to world understanding - as well as a monument to your work + spirit -

---

Miss Fraser - a painter here just back from Ajanta will have me out tomorrow to give advice - Madeline Levine sent me an article about the

head of the Art Dept. (Monterey Union High School), just back from her sabatical year in India - Ajanta etc. & studied all over the place - Great experience. She was in some of the institutions for quite a while - But that is not at all necessary for what I want to do - The combination of what I am learning from Charlot & what I shall see there will be just right - not to mention the Excellent Chinese & polynesian things here - And still I will not be an imitator - This has been such a wonderful beginning that I can hardly envisage the wealth of the trip as a whole -

---

Speaking of wealth there is one thing I think I should do - if you can help me -

9

My itinerary - for which I enclose paid up bill - please put in top right desk drawer of my room - does not include meals (except breakfast -) in Tokyo - Singapore - Manila - Hong-Kong - & I of course not any thing in Bangkok. all this is going to cost me $100. more in cash - & the excess baggage will be $150 + at least for the trip. Having to replace bag & repair camera set me back some too - so I have gotta done budget very carefully - (am being very economical

to in order to keep 200 $250.

Kitty for illness & accidents -
I will need $200. more cash
to carry in checks. I have

You see I paid to

So could you send me next week -
this way the 200. I will go to

for it. They have been very nice here
then if so. I will air mail you

send the draft to American Express – Kalakaua Ave. I will mail address of this office near me – & do not take it out of my acct. but could you loan it to me? If I had kept the $200. Ritchie sent me – I would have it – but I put that back in my savings – It is the excess baggage & extra meals that are such a nuisance, I did not see how much that would be till now. Anyway wait till you hear from me – I'll send word tomorrow – & there will be time for Bank to air mail – or telegraph – the $200 – well – thanks – its a good thing I had this time here to

I do hope you are feeling stronger each day, and that Aunt Rege is comfortably settled in her room- So many things have happened since the very minute of arrival, that I have only now been able to spread out my things + sit down at a desk. The above small hotel (without dining room) on or near the beautiful beach of Waikiki -) is cheap + clean - really a guest house run by a nice woman + recommended by Fern hurst which is chock full. There are good restaurants near. The big hotels - very elaborate, are fantastically exp. This is typical - + I can walk or bus to the Hawaiian Village where Jean C. is painting a fresco at this moment. This pm. I think I am to help paint the background after lunch on terrace with Johnnah + friends. It is all too wonderful, + everyone is the soul of kindness - I have bought a cotton bathing suit + cheap pants (cotton) + no one dresses up much. The beach + hills + mts. + trees + flowers are fabulous - ~~on Sunday~~ The Hawaiians with their surf-boards + canoes fascinating to watch- on Sunday Mrs. Abbot (Bill Klene) has invited us all to Lanakai. But not sure yet if Mr. Charlot can go- His lectures are wonderful - 3 times a week at the U. I told Johnnah yr. book was on its way. Fernhurst will see I get anything that came to them-

A big filling fell out at breakfast yesterday + has been neatly put in by Good Japanese

I called Patty had nice talk (S.F.) Pittsburgh. University doctor who said he had a new plastic cement, + it would never fall out again! ☺ I hope that's the last one.

It has rained some - his raincoat is perfect + no one seems to mind-

I wish you were here to see it all- but will get started on Camera work Soon - so you can!

The Towers Thanksgiving card was a masterpiece

Dearest Mother. It's really hot today! It certainly is a good thing I have had this breaking in part of the trip here before the longer part of the journey. Travelling is partly technical & you have to get into the swing of it - Also you have sort of missed accidents at first & learn to be more alert. But now I feel I am pretty well organized. (met Reg - dentist etc)

So far it has been a very busy time but having my period I am now resting a little in the heat - tho' I went to Bishop Museum this A.M. & will be at mural all P.M. tomorrow to paint & also receive the artists who will come to meet Jean & Jo Lunah. I had a beautiful time on Sunday at Lanikai -

Quite my love to Skunky. Thanks about feeding him -

you can tell Mr. Morris I'm glad he did the watering. I was a bit worried about the dry spell - Camellias Hazeldene

tell Mimi - They are a perfect family - large - 6 children but all unique - beautiful house by the sea - near the Pali - i.e. the staggering lava cliffs that rise straight out of the Pacific. What a sight. Sea is 18000' deep - some Island mts. 14'000 high - so from base to top highest in world - including Everest!

Thanks for your letter of today with wonderful news from Dr. McKenney. Rank Goodness - You're great Mongo! And also extra review of Paddy. Yes - I'll have places for the other two - to Ben wait till you hear from me. Abbots were

thrilled with Paris - & with 6 children it was really worth while to give it here -

I am still debating about the $200. at first I thought I'd try to go on without it. This has been a bit expensive in that after kind people take me about & ask me to dinner & then we all meet at the musical or something it's up to me to entertain so I do - then I bought $1.0. worth of paper & ink to make sketches from the monuments & we did

The meeting has taken a little doing - since both parties are so busy - but I think this will be perfect. Will have to have all for iced tea! But its not too expensive - Mr. Kaiser is less exp. than some of the other places + more to look at.

Dearest Mother:

I had a nice talk with the post man at the P.O. He was very excited about sending books to far places, & was under the impression I was the publisher. Very well. He said he made friends with some journalist, & sent a coconut to his wife in Oregon for 67 cents. This coconut was passed about among many Oregon schools. As his Hawaiian said proudly — 67 ¢ postage. $100,000.00 worth of education.

However it costs me $8. to send the book air mail to Bangkok even. A boat was going out yesterday — so I hastily sent off 3 — Bangkok — Hong Kong — & Ceylon — & will write letters to the appropriate places at all points hoping they will arrive. Sometime — post class mail —

5 So far L.S. has been seemly Chalot + 102 artists + assistants. Will just be nice to bring it along.

Some of the Japanese boys in town served us dinner (cooked at home & brought over with all dishes & accoutrements) last Eve — to usual work goes on until 9 o'clock. after I had entertained Abbots & others at tea — I took a picture of Japanese dinner. I hope it was successful. A Hawaiian meanwhile entertained us with music. I worked mostly on architectural decoration. This has been a very busy & intensive time — & I imagine the whole trip will. With greater spots here & there. The Abbots are very unusual — & am glad this meeting occurred at last. Hope it leads to things. — Love, J.

Yokohama

letter post. However will carry mail with me — & at least 2 & possibly 3 in & out of my luggage. I think that is the best we can do. It paddy is a greatly appreciated gift — & a real blow for international education. The books have to be wrapped quite differently for insurance —

The mural will be finished today — & I have really learned some major things. The Japanese family

Dad's birthday

Kindly put picture p.c. in S. side drawer (only if you feel you can) & read pamphlet & put it out on flash table in hall study — or anywhere in science book-shelf — or loan to Wilkens. Keep extra copy in science book shelf for me.

Dearest Mother: How can I thank you for the generous check (Badrach arrived at the Am. Express today. It was good of Mr. Lyon to get it off so quickly & more good of you to arrange it — & add the extra to what seemed so needed. I think now I will be quite all right against Emergencies. And that gives me a better feeling — we can be very careful & Economical & then things come along — such as repaying dinners & courtesies — accidents — extra luggage fares & other things. So many thanks — & for all wonderful letters & enclosures. So glad the orchids arrived. I didn't realize they were so fragrant. I hope they were fresh enough to last a day or so. The purple & white ones wilt faster — which is why I sent the greens & tans. Glad so many people dropped in to see you & that you are O.K. with neighbors at night. Chris & John — & Traille if need be. I sent the Wilkens family a pay Inula P.C. at the academy today I saw many wonderful things. They had one great Indian sculpture. The vitality & strength of it outshone even the Chinese — It was a good introduction. I found Miss Hoogs — Mrs. Lowe's niece — the director? They had wonderful Chinese things — very great pre-Tang & wise paintings — but the Indian torso

had just what I want - movement + power -
I was amazed. Fine about Mrs. Watkins
+ everybody else! Am loaded down with
commissions (educational reports etc.) from
here to take to India + other places -
& a new introduction to Delhi - from
Mrs. Morris here - a playwright who with
her husband will be in Carmel next June
we will have to have them out. She
is registrar (?) of The University here -
is reading Paddy - which will then be
presented to the U. Library + you duly
Ranked. The Y. W. C. A. was most
grateful too. Just the place - young people
& big international emphasis. It is
all wonderful. The book is a big success -
Nothing could be a finer gift from every
pt. of view. Glad Aunt R. will return
on 28th Dec. - Mrs. Levine - a surprise? She
wished to return some time ago - + stay
when the baby was sick. I saw the importuning
letters from the daughter. She stayed on
solely for you + my sake + I was so
very grateful. Perhaps she just talked too
much to Aunt R. ? perhaps you are
right about it all. But anyway you are
wise not to hear more tales. However I
still feel she is a fine generous person ——
Too bad about furnace - a real nuisance as you
say; you could have had a new system - but

Hotel & air plane reek of DDT - Everyone goes about spraying - ☺. Hotel Manila - Dec. 6-1956.

Dearest Mother: Well, the big flight is over - & what an experience it was - about 20 hrs. in the air - and coming down out of the night from clouds to the tiny Wake Island in the middle of the vast Pacific - for vast it is - & then to Guam - where the fine weather became bumpy - And here I am in Manila Bay - facing Bataan & Corregidor - (I should send a P.C. to the Balsams) but everything is so exp. here - including post cards at 30 cents (our money) each - I sent you a cable - but now since the flights are shorter will call no news good news - patria - the short stops from here on. The flight experience was tremendous - I took plenty of medicine & was o.k. The huge plane was with its propellors & engines lit up looked like a great white moth - soaring around the globe - we did well over 5000 miles - It takes a half to 3/4 hr. to land & to raise the great bird - carefully circling - & how as tiny as they are & accurate. I was all wrapped up in a blanket in my tiny seat - I used an ear plug against vibration & kept my head covered - The Philippines were covered with clouds but soon we could see the green rice fields below - I have an excellent kind driver here - great luck - I met some rare children wandering in the park - & we had a long talk - The place is frightfully expensive $2.50 for lunch (delicious) there are hundreds of waiters - & 2 to each table - I had to go back & leave another tip! A man in Hawaii told me servants are immoral in the Orient, but they are satisfied with very little. I have been to Pan Am. The baggage charge is acc. to distance - this was the worst - but I must get rid of things - No matter how careful I am there are always expenses - There is a lot to learn - It was a mad house at the customs but I was lucky - & somehow kept papers straight & did not get stepped on - Philippines are drawing a crowning place - Hundreds of daily painted jeeps &

fly about. I am thankful I have a slow driver - I saw a parrot in a revolving cage & other signs of approach to the Orient - People (travellers) are sophisticated & have lots of money) But tourist passengers like myself ask simpler - Is it bad about furnace - Yes we should get more rent - I will do the very best I can - & don't worry - because if I get caught in any thing Am. Express will help me out - It is hard to express what this trip is turning out to be - so perhaps it will be worth it - Write about lily bulbs - Going to Lake Taal now Bonjour

Friday Dec. 7.

Dearest Mother: I have heard many people describe the delights of travel, but I had no idea it was like this + that the world can reveal so many new + wonderful things - Nor did I realize what other world treasures my desire to go to the far East would reveal. First Hawaii + now the Philippines - Each was a dream. In fact I was less prepared for the greatness of the Philippines than anything. It is absolutely stupendous. Today we took a drive thru the most incredible countryside I've seen rice fields - coconut + papaya + coffee plantations - passing thru the most amazing villages of thatched huts on poles with windows whose small panes were made of shell - + underneath them friezes of charming wood-carvings - But the people - the wonderful strange yet familiar people - riding their water-buffaloes carrying gaudy cocks, or travelling along with their pole balances of green bananas + papayas - All the strange new sights + sounds + yet each human being is quite like ourselves + with the same fundamental aspirations. Arrived at our destination the lodge overlooking Taal lake - an enormous body of water with volcanic + crater islands set in the centre of the lake and of course - + backed by mountains - all of this stretching to a far glimpse of the China Sea - I was overcome by the nobility + greatness of what I saw. This morning I went to the National Museum + making friends with the curator - he explained the origin of these islands once a part of Asia - + how the animals came to be here + other strange things - This late P.M. we went to the Presidential dwelling + nothing could have been more beautiful. The chandeliers from Chezkoslovakia could not hide the wonderful native wood carving - + the terraces outside looked out on the Pasig river where great lotus + water-lilies were floating down.

Needless to say - there is a great deal of America here too - mostly the coca-cola sort of thing - + a teeming population - + much dirt in the by-ways + too many children - But they are a wonderful people + on the way up to a real destiny. I noticed a small child picking up cocks feathers + putting + rather sticking them carefully in an old Kodak film box. He left a corner was jeeps have been painted bright colors + decorated by these artistic people + they whiz about every-where - This people - newspaper man from Iowa + his wife went with us today. Sunday I go to San Antonio!

Love. J.

Hong Kong, Dec. 12. I gave my air-mail flight + arrival card to you to a rather doubtful boy at Sentinel the hotel. I hope he really mailed it. I am saving money on cables on the short flights. I forgot to say that at San Antonio village there was general gloom + disappointment that you were not along. I have written long letters to Leonis wife Buena at Peter Pan + to my hosts at the village so have not been able to describe to you the stupendous + touching welcome. The gathering of the village - the feasta- the flowers. The delicacies of young coconut etc - the calls of the officials - Everyone dressed up - the tour of the village + the schools. We ate on 2nd floor of native house. It took so long to get there - bad roads that I only had three hrs. there - It was hectic + they had gone to so much trouble - we went from house to house greeting the people - + the last place they brought out fish + more coconut - Please telephone Peter Pan + get Buena + Leonis + Felix + tell them that their people gave me such a time that I will remember my whole life - + that we are all friends now - It seems hard to believe that but 3 days ago I was embracing the old mothers of Leonis + I think Felix - upstairs in a 2nd class Filipina native house - waving at the neighbors from the open windows across the tropical gardens - (the houses are raised above the ground to avoid the water (rice fields + floods) - + yesterday my name was announced in a loud voice as I was ushered in by aide de camp to state luncheon at Governor's mansion here - Lady Grantham had invitation waiting at hotel. Present were a ruler (Sheikh) of rich state near Persia - Governor of Samoan Island - admiral - other officials + "mirabile dictu" very near me the British Rep. in Peking down for a brief visit! - I have written in my notebook the complete story of inside China I heard from this remarkable young man - a strange intense type. Everyone left immediately after lunch - but I was early arrival + had time to photograph the beautiful gardens + views. Neither Mimi nor Mr. Wolfson did the slightest justice to Hong Kong in their pictures. It is a staggering place - Tomorrow I have a drive toward the Chinese border - very close by - Gorgeous port - mountains - ships - huge city districts - and the beginning of dirt + teeming populations + some of the difficulties - so am wearing gloves + starting to maintain precautions - not nothing eyes etc. I have eaten well here - after having to skip some meals before - + trying to get a bit of rest between the tours - Nice about Morley + L.S. Galpin. Glad you + Skunky are O.K. - Grandsons will receive Paddy soon I guess - By some miracle I got excess weight down - just left things behind - But have to wear suit on plane - it is heavy - + then change in hot Bangkok. Cold here - wear coat + sweater - There is lots to do to travel - but once you get thru customs + all the rest - things go well. Just ate good breakfast - scrambled eggs, toast, oatmeal! Tea I-

Bangkok - Dec. 17.

Dearest Mother. I hope the garbled post card from here did not alarm you - It was just that the somewhat concentrated schedule so far + a very cold rainy spell in Hong Kong after Manila heat rather gave me a bit of a cold. The very fine mission doctor here, many years in China - produced some terramycin which will rest + food worked wonders - + so I am able to get downtown today to P.A.A - in mission car - + M.D. says I can go to Calcutta tomorrow He has some to get more terramycin so that I can have a reserve supply - He also knows about malaria areas - + gave me the advice that I had not found elsewhere about taking Dr. Wells illiquin pills. Dr. W. by the way, I forgot to validate my health Certificate + I had some trouble getting public health officers to sign + do it - (against rules). Hong Kong is a trying place - + it was there my purse was in suitcase stolen - but only 15 money. I had my Emergency book + about 250 left. And at Calcutta Jeend + Co - my agents - + the P.A.A. manager (friend of Wilson) will undoubtedly be able to get my money back from A. Express by cable - Since the lost checks are now all Cancelled - + get me new checks by the time I return from Darjeeling - The people here have been immensely kind, + I was very lucky to be able to rest here - From now on I will conserve energies + especially talking for

Some people say leave valuables in Hotel safes - others never. Keep asking P.A.A. + Jeend.

the most might. Mrs. Mrs. the nice Baldridges from Iowa) who were at Manila Hotel are here too, + I think I can tour the palace + museum with them in A.M. before flying tomorrow - It would be too bad not to see anything. They are at market now - but that is not important. Dr. Wells will come again this P.M. + give me instructions. Many of my fellow travellers have had digestive troubles - So now I feel really initiated. I have made a belt + pocket of leather + plastic cloth to wear inside + for some money - + will keep things

more separated. I have learned many things. Things no one told me before I left - + had plenty of trouble with luggage - Thomas main point is now normal weight - There is a great deal of paper work - keeping track of everything -

Wish you could hear the night noises here - birds - squeals - roars + shouts. I mote going to Cambodian fair near by. Dr. said I could not go - Music + singing - Bedlam till 3 A.M. Then 2 hrs. I quiet. Thai are an interesting Mongol people - with strong legs who marched here to the "Golden Chine" from Yunnan China in ancient times. Thai means free - They originally came to China from Central Asia - Wonderful letter about you + Skunky.

ON CHRISTMAS DAY. Thanks for letter + Commentaries on living — for our daily happiness —

Dearest Mother: When the tibetan "bearer" just came with my tea — there was your Christmas ($kunkie - KITTY) letter on the tray — arrived just this p.m. Many thanks + for the wonderful cable — Yes, I think I have the worst of the cold licked. The doctor here, an Indian, much more thorough than the man in Bangkok, put me to bed + prescribed excellent things — So that after 2 days of rest I am now really much better — the hotel is the most comfortable yet — except for freezing areas between bedroom — dining room etc. But a coal fire (3 rupies (60¢) a day) goes all the time in bedroom + bearer brings in hot bottles + everyone is such people are the soul of kindness — So that I have had the 1st rest I've had since I left home — and no hardships — since my room looks out on the real thing — + I've seen the mountains — Yesterday morning — bearer — rushed in at 9:45 am — shrieking "Kanchenjunga" (27,000') in an excited horie — rushed to the window — I got up + went mes — + at that moment the great armies of clouds parted, + the Zenith itself seemed to bounce the array of glittering peaks only 35 miles away such as I never could have imagined in my whole life — It is as if the world decided to reach the heavens — + being monster the whole ridge was solid glittering white — well, I think I have it for prelude — Just the thing — And there are the tibetans — I can hear the splatter of the ponies' hoofs — see the fur caps — hear the little bells + laughter — A fine simple people — M.D. said I could not go to Kalimpong with Dr. + Mrs. Hogies of the world health organization (he has been teaching medicine in Assam) but I had a talk with him — + except for masses of wild poinsettias in bloom here this time of year — I will not miss much. Tho' I was disappointed at first — I did get to Sunday market before having to turn in — + got — I hope — some really remarkable pictures — the tibetans were in from all around + there was a communist meeting going on — Then the manager sent me one of the best traders who came today with his little sack — + there was real treasure in it + a perfect thing for — guess who? ☺. Will stay in bed again tomorrow + go down on Thursday as you know.

M.D. has given me a good tonic.

Thanks for all news of friends + for getting Krishnaji's book for the Point — glad Burma was pleased — these people were not of this world — Mona sent a lovely (new) Xmas letter here — (last night there was some very quiet carolling outside) for Calcutta I met the son of the man who showed the value of Indian painting to the world — He had some old sketches — cracked by the artist — with color notes — After some discourse I decided to show him my book — wondering what reaction this man — trained in the best Indian things would have — To my great surprise he was quite overwhelmed — said it changed many of his ideas — he liked especially the last one — + apparently discussed it with friends — Fine about Paddy's having come — But you are doing so much — so many things — I hope Aunt Regen will help with the wrapping

Am quite sure will be O.K. from now on —

Hope you really are feeling O.K. — Mimi says you are a wonderful Mother, Bonzo

Pleasant weather here - will be cold in Delhi.

Dearest Mother: Many thanks for all your wonderful letters + cards + cables. I was glad to know about my account. American Express Calcutta gave me a little more than half of what I lost in Hong Kong. The rest I am supposed to get in Delhi or Bombay after they get things straightened out at the N.Y. Office. It was all something of a nuisance. Also I cannot just get checks by asking for them as I am not travelling with Am. Ex. Co. So if I do not get my full refund now - if I need extra cash I will have to cable you to get Lyon to cable the amount to Am. Ex. Co. Bombay - which is where I will need to get the amt. needed for the balance of my trip. Of course it is possible the Wilsons can help me out - I do not know. I hope to find them in Delhi. The money was taken from my purse right in Pan Am. Office - during an altercation over the weight of my luggage - when my purse was hanging on my left arm + my hand was elsewhere. Fortunately my papers in the same wallet were not removed - + the whole wallet laid nearby where I recovered it. Hong Kong was difficult in that way. India has a different character. Even the air lines are much more agreeable. Tremendous things are going on here. And it is all a most wonderful experience - one has to go to a place - not just hear about it. I am glad I chose this pleasant hotel - since I contain me to need rest + catching up. I got an introduction from the Tour Office (Govt. India) here to Shri Das curator of the Hindu University Museum here. He is one of the great authorities on Indian Painting. He introduced me to a descendant of one of the early great painters of the Mogul period. This man is staff artist at the museum. He showed me his colors in shells + presented me with a squirrel hair brush. I took my book along. I was nervous. Shri Das was impressed. He called in the rest of the staff. He got excited, + talked in Hindi about the hawk + heron (plate 4) + the Eye which he said was wonderful. He called for a rare painting in the collection of a hawk attacking. He had it brought + promised to send a photo to Carmel. He asked about R.S. read a few lines of the poem. We made friends - It was a real test. These people responded to my drawing. I saw the Freer Gallery man had just been through.

many wonderful things including a bronze pre-historic figure. I'm so glad Skeeter likes that toy. If she gets tired of it - just turn the pill-box over. Cats get tired of the same smell. I am sending Aunt Ris letter to 56 Street I am not sure where she is - are you O.K.? I suppose the heavy weather has set in. Keep warm. I have not heard from Rosalind's man at Rajghat School. Will see about that tomorrow. I hope O.K. Love Jean.

Dearest Mother:
What a wonderful time this has been in Banares. In the first place this is a very gracious & comfortable hotel set in gardens outside the city. The assiduous & kind attentions of innumerable servants must be a hangover from the British - But there is more than that, just infinite kindliness & attention. I spent two of the lovely balmy days resting, & the others have been full to the brim. To begin at the end I had a boat ride on the River Ganges this morning in exquisite weather & in various ways I sensed many things about the people as well as the deep changes that are taking place. This afternoon I went to Rajghat school (Rosalind's introduction) and after seeing the general set-ups & being entertained at tea, & hearing some exceedingly intelligent conversation, I had the luck to see about half of an ancient classical play in Hindi - including music & dance, which the students were putting on, & which was beautifully staged & costumed by the art director who was trained at Rabindranath Tagore's center in Bengal. I was sorry to leave at 7 o'clock, but the driver had waited 3 hrs. & it was getting cold. I left International Institute of Education: Matching with the director, & I think Watson Davis' Science Kits would be just the thing for their growing science Dept. which includes 2 yrs. College. The school is on the banks of the Ganges - lovely in the early evening with the quiet sails, green trees & laughing children. Fortunately, I have had a very good guide here, who has given me a great deal of information & insight. And only conversation with my elderly driver this eve. was extraordinary - at the school I was given 2 children's paintings for my collection. This people is so intelligent & their values so human - only an overlay of superstition & population & poverty & the apathy left after British rule - as well as due to a heavy virtualistic tradition - truly these things need to be removed - are being fast removed - to loose the great intelligence & deep spiritual & human qualities in the world. As Mrs. Telang said at the school - problems are fundamentally the same everywhere. And America & India are approaching them from slightly different angles - but approach them we must. We are all drawing together. They need us & we need them - it is so wonderful for me to be moving about among the rest of mankind - these peoples - & especially here - though all have their unique place - I read the papers assiduously to get all the angles - political etc. Mao has just gone back to China. I cannot tell you how I feel about India. There is so much to observe & feel apprehend.

As to business, from Calcutta in 5 or 6 weeks (& I hope not till January) will come 2 old Kangra School paintings, purchased from Bharany - friend of Kramrisch & Harvards Coomaraswamy - Value $90. These showed be declared as part of my $500. exemption, but I am afraid I did not get things worked out. I hope there will be no duty to pay, but if there is only a little - I do hope you can get them safely to the Point. Heaven sent some old clothes for me to relieve my weight of luggage - a constant problem in air-travel. Also I got into buying some silk here (Banares is famous for it) - more than I planned - I wanted to get every thing from all India Handicrafts in Delhi - but will get what I can. Coach - cars here - & small things. The silk will come by sea (AMERICAN SOCIETY OF TRAVEL AGENTS, INC. ASTA) and I hope in 2 duty-free packages - 1 big piece - embroidered - & a few small things. These are my main expenditures - except for D.'s bills! I got some unfinished sketches from Bharany - very fine & very cheap. But I have been buying 60¢ to $3. apiece - and very beautiful. I really hate to move on to Delhi tomorrow - but I must. It will be much colder. I think the Wilsons will be there at present. Krishnamurti is in Madras - & then goes to Ceylon - Hope you are feeling all right - & writes weather not too bad - & that Reg is here? & Skeeter fine. Love Jim.

DELHI

Central Asian painting is a mixture of Greek-Chinese Persian + Indian + still original!

Hope you are feeling all right!

Dearest Mother: It has been a wonderful time here in Delhi - First I saw the great monuments of Shah Jehan & the other muslim conquerors. That was like a visit to Persia - Then I have seen the National Museum with all its treasures - & the ancient Hinds (3000 B.C.) of the Indus River Valley - great things - And most startling of all, the Central Asian Antiquities museum, with the wall paintings from the Turfan Oases 6th to 10th century & drawings & even prints! These paintings are absolutely astounding. I have never seen anything like them. I've just got to try & get back there tomorrow - I had dinner with Juanita Goodwin's friend - Miss Haddow & met a lot of interesting people. American Information Service - Secretary of Fogg museum (Harvard) & many others. Betty Willis is here & we have had some great talks. She is adviser to the Indian Govt. on textiles & exports; & is soon starting out on a trip to all the villages. The Govt. buildings are very impressive - but cold - & tiny charcoal fires here & there for the members to warm their hands. 44° F. today & raining. The new housing developments are very handsome. I went to Rosalind's friend at the all India handicrafts board; & Betty & I will go there tomorrow night for dinner. Four small packages will come in a few weeks from the Cottage Industries Emporium - I am supposed to start on the automobile trip Had to buy a Thermos bottle today - 14 rupees on Thursday the 10th - The Wilsons have been held up but will meet me somewhere along the line. The Hindus & Chauffeurs have been excellent & the soul of courtesy - Am. Express has not yet refunded half the stolen checks they have to consult New York or something - I hope to get the cash in Bombay - but I felt quite nervous being so low - So sent a cable to Lyon & told him to inform you & I hope the 300 will come in time before I leave here. It is just to have ahead - & I certainly hope the last call. It is not what I have bought - but the constant tips, taxis etc. Why purchases are about 250 - & will not exceed $300. when I get home - Thanks for cards,

Am having to cut down on correspondence - have no Time!

to Capitol. Betty Parr.

I wonder if you really want me to keep Banks for you + pictures of Tiger + Charlotte.

G.D. WILSON JUST TELEPHONED FROM DELHI - WILL MEET ME AT BHOPAL + CONTINUE ON FROM THERE - HOPE YOU ARE OK. LOVE J.

DEAREST MOTHER: THIS MORNING WE WENT ON A VERY BEAUTIFUL DRIVE TO FATTEHPUR SIKRI - THE ABANDONED CAPITAL CITY OF AKBAR, GRANDFATHER OF SHAH JEHAN (WHO BUILT THE TAJ MAHAL). AKBAR WAS A VERY INTERESTING MUSLIM KING WHO PREFERRED THE LOCAL RED SANDSTONE TO MARBLE. THIS SANDSTONE IS VERY HARD AND FINE GRAINED + THERE ARE THE MOST MARVELLOUS CARVINGS ON THE WALLS - QUITE ALIVE AND ORIGINAL, ALSO TRACES OF PAINTINGS - AKBAR WAS NOT ORTHODOX, AND, UNLIKE SHAH JEHAN, MINGLED HINDU AND MOHAMMEDAN IDEALS - UNEXPECTEDLY CREATING A FASCINATING STYLE. HE HAD TWO ARCHITECTS IN CHARGE 1 HINDU AND 1 MUSLIM (PERSIAN) THEIR NAMES ARE ENGRAVED TOGETHER ON A STONE NEAR ONE OF THE FOUNTAINS - THE MOSQUE IS PERSIAN; THE PALACES WITH THEIR ELABORATE PILLARS - NO TWO ALIKE - ARE HINDU - THE WHOLE WONDERFUL CITY WAS DESERTED AFTER HALF A CENTURY - + STANDS INTACT ON A HILL ABOVE THE SURROUNDING PLAIN. THIS PLAIN IS DOTTED WITH INDIAN VILLAGES - OF THE MOST INTERESTING CHARACTER. OUT OF STUPID TIMIDITY I MISSED GETTING A CLOSE-UP THIS MORNING OF SOME WOMEN AT A WELL. I STOOD TOO FAR AWAY. THE WOMEN, DRESSED IN GARMENTS OF SEVERAL SHADES OF STRONG YELLOW TOGETHER WITH RED AND GREEN WERE DRAWING WATER IN THE EARLY MORNING - THEY USED BEAUTIFUL LARGE BRASS POTS WHICH THEY CARRIED ON THEIR HEADS - (THEY POLISH THESE WITH MUD + THEY ARE VERY BRILLIANT) EVERYONE CARRIES EVERYTHING ON THE HEAD HERE. THEIR BODIES ARE MOVING COLUMNS. IT IS THE SORT OF THING THAT MADE SUCH AN IMPRESSION ON DELACROIX IN MOROCCO. I MUST REMEMBER TO MENTION THAT TO WALTER PACH. THE WELL-WATER IS ABSOLUTELY PURE, MAPAR WITH BOILED WATER, + SEEMS WARM IN WINTER AND COOL IN SUMMER. LATER I SAW WOMEN WALKING ALONG THE ROAD TO MARKET; THEY WORE STRIDENT (INDIAN) YELLOW SARIS - (LENGTHS OF CLOTH) WITH BROAD EMBROIDERED BANDS OF PURE SILVER - AND SILVER ANKLETS AND BRACELETS - OTHER WOMEN WEAR COARSE COTTON CLOTHS OF DEEP PURPLES AND REDS - PATTERNED WITH THE TIE + DYE METHOD. I WENT INTO THE COURTYARD OF A POOR WEAVER'S FAMILY, AND PHOTOGRAPHED THE WOMAN CARDING THE COTTON. HER HUSBAND SAT behind in THE DOORWAY WITH MASSES OF THE DYED WOOL. PURPLE AND GREEN. I SAW MANY COWS AND BUFFALO - AND JUST A FEW MONKEYS. I PASSED A MAN WITH A TRAINED BEAR - THERE ARE INNUMERABLE BIRDS IN INDIA. I SAW A Large bird in 2 SHADES OF BLUE THIS Am. sacred TO THE HINDUS - PRIBABLY BECAUSE OF THE COLOR - ALSO HUGE CRANES + HERONS FLYING SUCH AS YOU SEE IN THE INDIAN PAINTINGS. ALSO MUCH REAL POVERTY AND HARDSHIP among These beautiful scenes. BUT THE PEOPLE ARE CLEANLY - THO' THERE IS A LOT OF MESS IN MANY PLACES - AT FATEHPUR SIKRI THERE IS A MEMORIAL TOWER ADORNED WITH STONE TUSKS WHICH THE EMPEROR BUILT TO COMMEMORATE HIS FAVORITE ELEPHANT - TELLSKUNKY! ☺

GWALIOR. 1/15/57 Dearest Mother:
By some good luck a letter from Aunt Rede got here in time to catch me telling that she left you & the Point in good shape & that the Gate House was once more in order, & a new inventory prepared. I certainly hope some good person comes. I wish I were there to help you. But I am here having this incredibly great experience — By being careful & also keeping up with things & the luxury of the motor trip has brought me into close contact with many things not usually seen by tourists. I am getting to know these wonderful people. Tomorrow we leave for Khajuraho & the G.O. Wilsons will meet me at Bhopal. G.O. [illegible] I do hope you are feeling O.K. & Skunky too! Bhopal - 1/19/57. Dearest Mother: Here we are - the Wilsons and I in the rather shabby rest house at Bhopal after the most marvellous day at Sanchi - There may be a shower running over the floor + a poor toilet, but nothing can take away from us or surpass the marvellous day - I think Carol + G.O. had a great time too - at least they said they did - We met their 2 hr. late train from Agra last night after our own 200 mile spectacular cross country journey from Khajuraho - I suppose I have never had such a great experience as the motor trip down from Delhi to all these great places - I am afraid the bill is to will be commensurate - crossing rivers - going down jungles + seeing these incredible monuments - Like the one today - The massive stupa with the unique carved gates - set on the domed hill in the middle of the plain - the Indian women ~~in all shades~~ at the well - in all shades of mauve to cerise - carrying the golden jugs upon their heads. The little group of musicians for the country wedding playing + circling the Stupa - That unique Buddhist monument of 300 - 200 B.C. standing intact with all its lovely carvings after 2500 years - The figures glowing against the blue sky - To get here we crossed great rivers + mighty plains - + saw the women breaking rocks for the road dressed in purple saris + silver anklets - + the poor aborigines still worshipping spirits in the open - + flocks of goats + monkeys with long ~~tails~~ running across the spaces between broad leaved trees - We plan to send you a cable from Aurangabad. We all went to the local fair this eve + the Wilsons bought 2 dolls + G.O. bought me a little black bag that I admired - I am feeling better + made some sketches at Khajuraho - quite a feat for me in this strenuous time - But I do feel fine now + have gotten every minute out of the trip - It all seems too good to be true - I was able to tell Carol you were o.k. + holding the fort - They have had a great trip + many wonderful experiences - We have actually all got seats for tomorrow's plane but it may be late in getting off - ~~Do hope~~ I say good bye to guide + chauffeur here. Kumar guide, fine young man, may come to America later for studies - Hope you are o.k. - + love - much love from all -

Dear Charlotte:

If you could have seen your daughter as we left her yesterday at the Ajanta Guest House, radiant and excited over seeing her dream come true, you would be sure to share our conviction that all this effort is completely worth while. We enjoyed four wonderful days together after she met us at the Bhopal station last Friday night. She is such a satisfying companion that we wish we could have shared much more of our trips. But we will meet her here again on Saturday night and have Sunday together before we start off for Ceylon on Monday. She will be in Madras when we return there on February 3rd and we will share one more expedition there the next day.

Her rare talent and friendliness attracts interesting people wherever she goes — the latest being a young archaeologist at the Ajanta caves who promised to bring out his water colors today so that they could do some copying of those amazing paintings!

You, Elsie, Carol Pickett and all our other mutual friends will have to be prepared for an avalanch of conversation and pictures next summer!

We are so happy about your books and that Viking Press had the good judgment to bring it out right now. I am going to order copies for two of our granddaughters and will bring them to you for autographs when we return.

Osborne joins in many good wishes,

Fondly,

Carol.

1/26/57 Aurangabad: Yr. 3 splendid postals met me here at Aurangabad when I arrived from the great trek. It has been a staggering experience coming through the heart of India right through the open country, over pontoon bridges & crossing a great river on a barge - getting into the villages - seeing the people - going to the fairs - and then reaching one of the greatest monuments ever made by the hand of man - The kids were met me at Bhopal. We (Guide - chauffeur & car) met their 12 hrs. late train on the station platform & it was a joyous great meeting. Next day I took them to Sanchi. G.O. said he had never seen anything like it in the whole world - & they had just come from Athens & Persepolis - Then we went to that absolutely incomparable Ellora - where the sculptures are the most intense for movement & power I have ever seen, & then to Ajanta - up the hot canyon to the bend in the river where the consummate art of the Gupta paintings has lasted 2000 years in the shelter of the great Buddhist caves. They left me here - & went on to Bombay where I shall meet them at the hotel this eve. There was no way to send you a cable or even mail, so this was a long silence from this end. But I wrote you that would happen once I started on the motor trip. At Ajanta I made friends with 2 young government archeological officials, & they gave me a wonderful time here - There is so much to tell - it's impossible now - My guide - a splendid person hopes to come to Univ. Calif: later on - I have seen and learned a great deal on every hand & the trip has proved to be more than I dreamed was possible - I told Leyon to let you know about the money - in my cable to him - In Bombay will see about refund. Very happy about Modern Art & U.S. Hope you are OK - miss you every day - & the Pop & Skeeney - love to all friends - Bon Voyage -

The Wilsons are now in Ceylon - & sent a cable that it was all wonderful. In Everymans recommendations, including the travel agency - & P.A.A. I am trying to get my Ceylon tour changed from Alitalia Co. to Ceylon Tours which is much better, & Cables are going to Miss Sarecht to that effect & I do not know how she will arrange, but am waiting for word. It is possible, too, that I may get an earlier flight & to Tokio & Seattle from Colombo - But that depends on what P.A.A. can do for me. I am waiting now to see Mr. Mitchell - manager here & friend of Wilsons - I shall stay here until the 3rd & take only 3 days in Madras where the Wilsons will join me again. - I am trying to get a flt I rest here - & am hoping to hear if Krishnaji will give a public talk while I am here. He has just arrived in Bombay - & the people he is with know I am here - but as yet no word. Betty Willis wants to go to hear him too. The head of the Handloom board here arranges his talks - It has been such a wonderful trip in every way, & I think I have really grasped something of this extraordinary country. The Wilsons & I walked in the Independence Day Celebration the other evening - an amazing experience. Your splendid letter & card were here - & letters from Ann & Ruge. Charlotte & Edith Tower - It is wonderful about Museum of Modern Art - Seems like a dream to be with my colleagues at last. I'll write Mildred my thanks - & have already written Merle & Estelle a card I continued gratitude — I do hope you all o.k. & not too swamped & Skinsley o.k. & the Point still There. As you say - there is so much to do — all the time & everywhere, yes. P.C. just here - P.A.A. manager Mitchell just sent me to Am. Express Manager here — they will give me $200. tomorrow. Middle was because Hawaii replaced some water - damaged (remember my purse [ot Soaked?) checks with new mes & the second was confused - partly my fault. But anyway influence has helped, & I am o.k. for cash. I am working on rerouting homeward flights - will advise you of any changes later - Thanks for all good cards & letters & love from Bonzo

Dearest Mrs. Meyer:

Did I ever tell you how happy and moved I was to have your telegram (just before I left) that you approved of the "Loving Shepherders" - It was a grand send off for me on this trip - which is the vital link to the painting I hope to do in the next few years. I cannot tell you what a profound experience this has been - I have done my level best to grasp principles which I feel are not only important to me, but to a new art which might come from a combination of certain principles of west & east. Not some unhappy fusion such as Gandhara - though it had ultimate good effects, but something really organically new & right. Anyway we shall see - Perhaps you will be coming west before too long - & we can talk. All piece things - I have some good slides & some original things - I do hope you are feeling well. We think of you all the time - Mother keeps well & is holding the fort. Will be home about March 1 -

Much love - & greetings to Mr. Meyer - Jean —

am on my way to South India (Bronzes) & Ceylon - more frescoes.

P.S. (Museum of Modern Art, N.Y. has bought one of the black seaweed prints and the Lovers)

P.S. Thank you wonderful Check helped so much! Thanks —

Bombay 2/2/57 - Dearest Mother:

What a wonderful time this has been. Rosalind's introduction to Krishnaji's hosts here proved a most beautiful one. The nicest people and so courteous & friendly - The daughter-in-law who is a charming beautiful girl will be coming to America this spring for treatment - perhaps at the Mayo Clinic. She will be in the East where she has many friends, but I do hope she can come west too. For I felt I found a real friend in her. It was wonderful to see Krishnaji again - just the one visit at luncheon; but such a perfect time. He has not been too well, & is having to rest before the next talks here, which begin on Wednesday. We were just the family at lunch, and again the extraordinary greatness and spiritual insight shone forth as he sat at the head of the table. He asked after you and was glad to hear all our news; as we talked of the art of India she took my inmost desire right out of my mouth - which is to combine the principles of East & West in a new art - what an extraordinary man! I am awfully glad Betty Willis is going to hear the talks - she is one who may apprehend Reality - not like Maud - we agreed on that - She is doing a great work for India against odds but loves it. She & Mrs. Mozarji will enjoy each other - I had a nice note from Rosalind & must thank her soon. It has been a most significant time - Tomorrow Madras & the Wilsons - Hope you are O.K. Love, Bongo.

P.S. Love from Wilsons -

Dearest Mother! It is hard to realize I am already in South India & nearing my last stop here - Today I took the Wilsons to Mahabaliguram where are the rock temples - fascinating carvings from giant boulders on the sea-shore, & great relief carvings of figures & animals in the stone cliffs. We had a wonderful day - and saw many indescribable colors of costumes & clothes as we drove through the rice fields and coconut groves. The people here are very dark, & have beautiful thin bodies as they work the oxen & the various works of the fields - Tomorrow the Wilsons fly to Calcutta & I go by night train to Tanjore to see the frescoes at it. There - It will be my first Indian train journey. Then I fly to Colombo the next day. Pan American has rearranged my homeward flight in a more Expeditious manner. Will save time & a little cash. Leave Colombo by Ceylon Air Lines Thurs. Feb. 21 - 6.55 Am. ar. Bangkok 2.15 P.M. & lv. Bangkok 1.15 AM. Feb. 22 on Pan Am - ar. Tokio 5.15 (Friday 22nd) lv. TOKIO 7. P.M. Wed. Feb. 27 & Seattle on Northwest Orient Airlines - ar. 8.45 P.M. 27th also - due to crossing the international date line. So arrive 27th instead of March 3rd -

I saw Krishnaji once more - briefly at supper at the Manjis - after a tour of the city & industrial fair at night. He appeared somewhat rested and improved in health. He sent you his love. I was sorry not to hear any of the talks. But B. will is will go -

It has been a wonderful trip in every way - & the Wilsons say Ceylon is splendid too - Homeward Bound soon now - for Poni & Monzo - & hearing riches for us all - Love to all & Bege - & hello to Skunk - Friend. BONZO -

Leaving Tiruchirapalli - for Colombo. 2/8/57.

Dearest Mother: It is hard to believe that I am leaving India today. It has been the most wonderful experience & the greatest magnitude & will surely affect my life and work from now on. I have done my best to grasp principles in this really only survey of some of the culture, but I think I have done fairly well & even more - has important - I have come to know the people with their fullness & depth - & above all a kind of affection & greatness - especially in the simplest people & the villages etc. No wonder such an art sprang up - last night the manager here invited some dancers & musicians to come - Two women did some very fine dances balancing a decorated pot upon their heads. This elaborate dance has apparently been developed from the common habit people have here of carrying pots upon their heads & other heavier burdens. Such is art - Well, as I say, it has been a wonderful time & I do think I have got hold of some important artistic principles. I certainly hope so - The Ambassador to India from Czechoslovakia & wife & party were here last night - She was very fine & sensitive - are they Russian servants? If so, good ones - My last visit in India will be the 2 girls coming up after their dance. Farewell - so warm & gracious - This afternoon I will be in Ceylon - & I hope to get things worked out there for a fine trip - The Baldridges are there - whom I met before & Ganesh's niece has sent an introduction to a Ceylonese writer, a woman, daughter of a chief of Kandy & authority on Folk art. She is with the United States Mission as librarian - so if Paddy has arrived, perhaps she can place it - as I told you I fly from Colombo the 21st - to Bangkok Tokio - & Seattle on the 8:45 P.M. 27th. Hope you keep O.K. See some to Skunk - you soon now ☺. Cheerio. B.

Trivandrum are very generous in spite of their awful poverty. How do they do it?

J.C. says the murals at Ajanta & in Ceylon are the last word. Thurs. P.M.

Dearest Mother:

The fresco - or rather room of frescos - was finished today - I worked again on the wall - retouching me? the conch shells & other things that needed to be pulled together with the line color. It was quite an extraordinary sensation to be left with such a great design - & have to put in even a few touches. They make a great deal of difference at the end - and are quite irrevocable - in that they become a permanent part of the wall. Then Jean presented his assistants (including myself)

Saw Mr. Kaiser this a.m. Talked about the mural.

with portions of the original
cartoon. He gave me a
whole panel with me
the swimmers & part of an
octopus - It is a beautiful
large drawing - signed as a
gift - I plan to put it
up in the studio - since it
will be a start toward my
new work. The problem is how
to get it back to you - So I will
have to see if I can get an art
store to put it on a roll & ship
it for me - I would rather not -
in fact cannot fold it -

Then Jean gave a very
Elaborate dinner for the 4
assistants (myself - honored and
kindly asked as I -) at some
sort of elegant polynesian

restaurant. He ordered champagne cocktails etc - apparently it is the ritual of completing the work - I joined in the toast realizing it was the thing to do - & consumed a very elaborate dinner - Present J. C. -
Janet Kimura (Japanese)
Shirley Kimura (Chinese)
Clifton Katerba (austrian)
& myself -
a delightful occasion -

tomorrow a.m. I have to go up to the University & meet Johnnah - Hope to get to the academy in the P.M. & Thurs Sunday night - dinner with the Charlots at the President of the Bishop (Polynesian museum) Everything to do on Monday -
I leave Tues. a.m. for Manila.

I am sorry to say that there is a Senatorial (our) investigating committee here to conduct a Communist probe of the I.L.W.U. (longshoremen). On top of the fact that they got drunk at the reception given for them by the Hawaiian dignitaries - (who were quite sober) the head of the committee is a notorious ~~segregationist~~ segregationalist - & anti-statehood for Hawaii. I think he got his job through seniority. J.C. thought he saw him at the restaurant this p.m. - well, so much for the day.

I do hope you are feeling better - & that Aunt Rye is O.K. - & Skeeter - & that the orchids were not too wilted - There was a whole wall of them at the place this eve. Love Bugs.

Colombo - 2/11/57

So beautiful here -

Dearest Mother: Many thanks for the fine card here at Colombo - How good of Sally to give another Shepherders, & I owned like one in Carmel. I keep showing it to people & it creates a nice kind of friendship & understanding. I do like Robin would be pleased. I'll tell him all about it. Yes, it is so wonderful about the Museum of Modern Art. I can hardly take it all in - will wait till I get home & digest the news! A very nice Ceylonese writes here - & radio worker - a young woman daughter of a Kandyan Chieftain - & now connected with the United States operations Mission in Ceylon has taken over the job of tracking down the copy of Paddy I sent Sea-mail from Hawaii to the Embassy here. If it got here she will see that it is placed in the United States Information Service library here. She was much interested in the book, & of course like one for herself - & as we owned send 2 copies, & she could place the other one in the library here. Have met such interesting people here, & one of the men at the museum heard Krishnaji speak here in Colombo recently & was completely bowled over & changed in the talk. He says the Buddhists are all against him - naturally any orthodox religion is - including Hindus. But what a great heritage they have & splendid thought & achievement - It is hard to break away to the new. But new must come. Any just starting on the Island tours. Baldridges - he owns several Iowa newspapers will come along - & pay back some of the expenses.

Heard the Symphony Friday.

2/14/57 - Here I am waiting for the dinner hour at the Polonnaruwa rest house - by the most exquisite lake in the middle of the Island of Ceylon. The buried cities are marvellous - very chaste & beautiful - a great art - The bronzes in Colombo are very fine too. If the art of Ceylon lacks some of the largeness & grandeur of the great Indian establishments, it comes almost of them in single works, & there is an original restraint & lovely perfection which places it on a very high world level. I think the Ceylon achievement is really extraordinary - and a most necessary part of the study of Eastern art. The jungles are rich & green, & full of monkeys and bright colored birds - Mr. Basnayake's introductions have brought me the help & friendship of several distinguished archeologists - & one ethnologist & anthropologist (at Colombo museum) the archeologist in charge at Anuradhapura allowed me to make a crayon rubbing of the famous moonstone - a thing never done before - I suppose I have the only one in existence! Imagine how I felt there in the glade in early moonlight evening making the rubbing of the animals & ornaments while Mr. Perapuna explained every thing to me - It all seemed like a dream. The Baldridges are back on the trip - very nice - He was president of the Am. assoc. of newspaper publishers & owns 6 papers in Iowa. I was lucky they decided to come along on my trip. Also they will pay ½ the cost - et. joined me today but I took pictures anyway - Saw white bird of paradise flying from tree to tree & the golden oriole & emerald bee-eater - Ceylon is full of birds & butterflies - SIGIRIYA - MARVELLOUS FRESCOS - FASCINATING ROCK FORTRESS. 2/16/57 - 2/18/57 - KANDY. BOTANNICAL GARDENS - WHAT A VISION. I THINGHT HOW O.M.C. WOULD HAVE ENJOYED THEM. GOOD MUSEUM - BEAUTIFUL MOUNTAIN CITY - FLOWERING TREES. LOTS OF RAIN - RODE ELEPHANT & WATCHED THEM BATHING - LEAVE FOR MOUNTAIN AREA & TEA COUNTRY TOMORROW - GOT YOUR CARD AT POLONNARUWA - & A FINE LETTER FROM AUNT REGE AT ANURADHAPURA. CEYLON IS A REAL PARADISE. PRINCE OF CAMBODIA HERE FOR BUDDHIST CELEBRATION - SO WE SAW PARADE UNEXPECTEDLY WITH THE FAMOUS KANDYAN DANCERS AND ELEPHANTS WITH GOLDEN TUSKS & PURPLE & SILVER EMBROIDERIES, BUT RIDING THRU JUNGLE WAS BEST - WE ARE GOING TO RATNAPURA AFTER ALL. BALDRIDGES WANT TO SEE IT. COLOMBO - 20 BANGKOK. 21. TOKIO. 22. REVISED PLANS. IMPERIAL HOTEL THERE. SEATTLE 27½ PERHAPS I WILL BE THERE BEFORE YOU GET THIS. Dear Miss Kellogg,

It was a wonderful day yesterday that I could meet you & could spend time with you. I really learned a lot from you & from Mr. Adachi. Besides, I greatly appreciated your kindness to give me a gift.

I shall be very happy if you would accept my small present.

As you already know, this is a picture of "Nikko Bosatsu" or "Bodhisattva of the Sun Light", one of the two attendants of Bhaisaj-yaguru-vaiduryа (Buddha of Medicine) in Yakushi Temple in Nara. This bronze statue was cast in about 726 A.D.

This is one of my most favorite statues in Nara & I shall be very happy if I could go to Nara with you in the future.

Good luck to you, bon voyage!

Good by. Takako.

Dear Jean:

I have now received a bill from Jeena & Company and we are thus billing you accordingly. The bill for both you and the Baldriggs is enclosed.

Also enclosed is your Pan American World Airways ticket for the flight between New Delhi and Aurangabad, which you did not use. As you probably know, the rate for your air ticket was figured round trip San Francisco - New Delhi and San Francisco - Bombay. Since we have given you the round trip discount, we can not refund you for the flight you did not use. If we were to break your flight and charge you for the individual flights, rather than the round trip, your fare would be $1,479.80 rather than the $1,453.17. Therefore, since this would not be to your advantage, we are returning the coupon to you.

I saw Mrs. Wilson at the Century Club on Wednesday and we are planning to get together soon, when she will tell me about your trip. I am still anxious to see your pictures and hear at first hand all about your wonderful trip.

Sincerely,

Caroline

Dear Miss Kellogg,

It's with great pleasure to receive a letter from you who is so sincere, loving and very friendly to all of us here. Surely your visit to our country, town, school, and home are everlasting events. For we all know, these cases come by chance and very rare.

Please tell your mother that I failed to send her a letter of gratitude when I received the book that she send me thru my sister Buena. My principal, Mrs. Jesusa V. Edeza and my fellow teachers in our school are sending their sincere thanks. They like the book very much. We are sure the pupils will appreciate and learn many poems and rhymes in it. I thank you very much.

I'm very happy because we have a friend who lives far away from our country who is very nice and kind.

Really we have lost a great leader. A true leader of the masses. And perhaps we can't have anymore leader like our late President Magsaysay. We hope the Present President will be able to continue the projects of our late Pres. He promised however to continue the projects when he took his oath of office.

It's so nice that you + your mother had a visit to my sister's place. I hope my brother Leoni + my sister are busy getting ready now to come home. We feel so home sick. We wish them to come home without fail, then we shall be enjoying life here together. Surely, we will be very happy indeed. May our Lord help them and guide them on their way home.

I received the two pictures which you sent me, and I see in it, the nice surrounding and also happy to see the picture of your dear mother. Please extend my best wishes to her.

Will you please remember me also to my brother and sister when you will meet them. I hope they are very well.

Thank you very much for the kind thoughts that you have for us.

Sincerely yours,
Miss Martina L. Aglibat

Dear Jean:

We have re-checked your bill and have come to the conclusion that to arrive at the figure which Mr. Alwis gave he must have cut the costs to the bone, giving the price of $190 for the Baldridges. In order to do this he eliminated my commission and a part of his. He did the driving etc. so he didn't have to pay for a driver or sightseeing guide. He must have neglected to charge the Baldridges for the cable he sent me asking if I would be willing to be billed for their tour so he added the five dollars when he billed me, which made the difference in what he quoted you. The cable I sent Mr. Alwis cost me $7.72.

I am willing to forego my commission but I do think we should bill the Baldridges for the charges which would amount to $12.72. They couldn't have traveled in Ceylon with the Ceylon Tours or even booked directly with the hotels for the price Mr. Alwis charged. The wouldn't have known about Mr. Alwis if you had not brought them along with you and I am sure they will be willing to pay the cable charges for this consideration.

I am enclosing my check for $42.28. If you give me the address of the Baldridges, I will bill them for $12.72 and upon receipt of this amount from them, I will forward it to you.

I saw Mrs. Wilson at the Century Club Wednesday. She reported having had a wonderful week-end with you.

Best wishes to your Mother and you.

Sincerely,

Caroline

Dear Miss Kellogg,

I am sorry that prolonged absence from New York has delayed this reply to your very kind letter of April 6. I am very happy that your visit to Ceylon was an extremely pleasant one and artistically very rewarding. I am glad that some of the contacts I gave you over there were helpful. If I do come to Carmel, I shall certainly look forward to seeing your sketches, photographic slides and other mementoes of your visit. Jean dear:

Here are the precious pictures of Mãmallapuram. The Hong Kong representative of Agfa sent them airmail, reaching us yesterday, with an apologetic letter saying that his technician had not been satisfied, had written Germany for advice and done them over. We are very pleased with the result.

I hope they are in time for your scheduled talk, and that we are going to see you in S.F. soon. Actually, my talk for Century Club is to be on September 25th and I would be delighted to have you as my guest if you can possibly get up for it. Then we are going to Fallen Leaf Lake for the weekend and will be back on Wednesday, October 3rd, when we are due to show some pictures at the Congregational Church.

The Friends of the Library have asked us to show pictures at the S.F. Public Library on Monday night, Oct. 7th, and we are scheduled at the City Club on the 10th.

We plan now to drive to Los Angeles on the 29th for a visit of about two weeks, including a stop at Carmel on the way back... so we will surely see you one time or other. Remember, there is always a welcome at 3525 Clay.

Please give our best love to your mother and keep much for yourself.

Fondly, Carol

P.S. The copies of the Sanchi pictures have not yet come back from Chicago. If they should not arrive in time for your S.F. talk, please feel free to borrow ours. My practical husband reminds me that ours are of course in Chicago!!

Dear Miss Kellogg:

At the Program Committee meeting on Monday, it was decided enthusiastically to ask you to show your films and talk to us on Wednesday,

January 6th — the first program after the recess for Christmas. You and I on the telephone had talked of this possible date as being convenient to you.

If you would prefer a date later in the Spring — in March or April, please let me know immediately

and we can schedule one.

We can correspond later on re title and content for the Bulletin paragraph and for the introduction data. Carol says Mr. Wilson certainly would consent to have the project if he has no conflict of appointments.

Sincerely,
Jane Louise Harrington

Dearest Jean,

As I have not been able to contact Mrs. Charles since receiving your letter, I shall answer your questions on my own, as she has asked me to be chairman of your day at the Century.
I. Better to go to the Century on the morning of the day when you are to speak. Call Mrs. Lawlor, the club's Sec. at Ordway 3-7117 and ask her at what
11 A.M. time it will be convenient for you to come. The club rents its auditorium for musicales, lectures etc. and you would not want to arrive in the middle of some such thing, and have to wait for the audience to leave.
#2 We have a beaded glass screen which belongs to the club. The exact measurement was not for the moment available, but Mrs. Lawlor assured me it is adequate, and is at least as large as your specifications.

"3. Our talks are limited to one hour.

There will be a luncheon at one o'clock on the 5th and I am having a table including Louise Mendelsohn and others who are eager to hear about your India. If you will be the guest of honor, I shall be more than happy, but if you prefer to have a quiet time before your lecture, I shall understand that. After the lecture there will be a tea and you are expected to attend that so the members may meet you. One other thing Mrs. Rabow said she would love to have you stay with her when you come up. I have asked her to the luncheon on the 5th and to hear the talk. I am allowed only two outside guests, but if there is anyone you wish invited I am sure I can arran e it.

Let me know if there is anything I can do in any way. I am most eager for the 5th.
Now back to Christmas./.

Much love Blanche

Dear Jean:

I am chargrined! About half way through the kodachrome reel on which I was taking the remaining pictures that you had marked in Mrs. Hough's folios I discovered that in some unaccountable way my universal view finder had been twisted to a longer range than my telescopic lens. Consequnetly all of the pictures that I had taken up to that point had a lot of waste white space around the edges.

I've mounted them in some special narrow mounts which mask out most of this and am sending them all to you, along with yours which we are returning for your possible use in talking for the Century Club. I expect to expose one more roll before returning the folios to Mrs. Hough. After looking at my unsatisfactory small pictures, if you will send back the ones which you would like to have in more adequate form I will make another try. I will also include in this new roll some pictures in a very beautiful UNESCO volume on Ajanta which was a Christmas gift from Carol.

If you are anxious to use any of the "re-dos" of the pictures I am sending to you in your Century Club talk there would still be time to get them if you will send them back promptly.

We are looking forward to seeing you while you are in San Francisco; I will hold some time free on Wednesday morning, Feb. 5, for rehearsal with you.

Cordially,

Osborne

Jean dear:

You should have had this note the minute I saw your talk scheduled in The Century Club Bulletin! I invited Patty Pillsbury at once to be my guest for luncheon and the program and asked to have a table reserved

with you as guest of honor. We are so pleased that your mother is planning to come, too. May I count on you both as luncheon guests?

Also, we would be most happy if you two would come to Clay Street instead of the Women's City Club. We have three bedrooms and bath at the other end of the hall from our own and are sure you could be most comfortable — and private —

Osborne is counting on seeing the pictures and would be glad to run your projector for you if you would like to have him. He is returning under separate cover all of your Agfa pictures and will program with you about copies

when you are here -

We join in love to you both,

Carol.

Dear Miss Kellogg:

I had the privilege of being in the audience during part of your talk and presentation of slides on India at Tularcitos and I regret, because of other commitments, I was not able to hear the remainder.

Everyone who was there that afternoon felt that your lecture contributed a great deal to understanding and appreciating this part of the world, which very often seems so remote to use.

Thank you once again and I hope you will be kind enough to visit our upper grades again next school year.

Sincerely yours,

Dear Jean, This is exciting—your talk at the Century Club March 2nd. I am having a table of friends in honor of the event. We are all eager to see your pictures, and hear what you have to tell us.

Is your husband coming too? It would be a happiness for us to see you both, but I don't know your plans at all. If you have a moment please let me know them. I'll see you on the 2nd anyway, and I hope I'll see you otherwise too.

dear Miss Dickie,

I hope you will not consider this delay in writing to you as an indication of lack of enthusiasm - To the contrary, I find it a formidable task to tell you how very, very much we enjoyed the program. As always, you leave us breathless with your beautiful photography, and impart to us an idea - or two - or three - which remains forever in our consciousness. All I can say is that your programs are justifiably looked forward to and received with equal reward -

Sincerely,

Virginia Gibbons
